THE QUICK-WIN PLAYBOOK

20 MINUTES / EVENT & PARTY RENTALS

1 Use item-level inventory

Give every rentable item or set an ID, such as SPK-02. Note quantity, condition, accessories and location.

Action: Start with the 10 items rented most often.

2 Record the full time window

Store pickup/delivery, event, return and cleaning-buffer times. A booking occupies stock outside the event itself.

Action: Block inventory until it is ready for reuse.

3 Separate rent from deposit

Calculate rental charges, delivery and setup. Record any refundable security deposit separately from sales income.

Action: Confirm deposit and payment status before pickup.

4 Close the booking properly

Use an outgoing checklist and a signed return condition check for items and accessories.

Action: Log missing or damaged items immediately.

CHECK BEFORE YOU COMMIT

Confirm your inputs, write down your assumptions and review the result yourself. AI can draft text; it cannot verify missing facts.

TAKE-HOME WORKSHEET

Fill these six fields, then use the prompt to draft the customer-facing output.

Booking reference

Customer + event date

Items / quantities / IDs

Delivery + return window

Rent + fees + deposit

Return / inspection status

COPY-AND-PASTE AI PROMPT

Create a customer confirmation for this rental booking using only the item list, dates, delivery terms, hire charges and deposit I provide. Organise it into a clear schedule and handover checklist. Flag conflicting dates and missing accessories. Do not invent stock availability or refund rules.

WORKED MINI-EXAMPLE

Tables: 2 × €25	€50
Lighting package	€50
Transport + setup	€75
Rent and services	**€175; plus €75 refundable deposit**

WATCH OUT A return at 10:00 does not mean equipment is ready for another 10:30 delivery.
