THE QUICK-WIN PLAYBOOK

15 MINUTES / SHORT-STAY CLEANING TEAMS

1 Set the turnover window

Write check-out, cleaning start, latest finish and next check-in. Leave a buffer for missing linen or damage.

Action: Do not assume the whole gap is available for cleaning.

2 Split checks by zone

Create kitchen, bathroom, bedrooms and entry/living checklists. Include surfaces, supplies, linen and safety concerns.

Action: Make every checklist line observable and specific.

3 Use four quality gates

Verify cleanliness, restocking, basic functionality and damage reporting. Photo evidence can be useful for agreed issues.

Action: Avoid capturing guests, documents or other private information.

4 Send a final handover

Report completion time, unresolved issues, supplies needed and the person who checked the property.

Action: Escalate anything that could block guest readiness.

CHECK BEFORE YOU COMMIT

Confirm your inputs, write down your assumptions and review the result yourself. AI can draft text; it cannot verify missing facts.

TAKE-HOME WORKSHEET

Fill these six fields, then use the prompt to draft the customer-facing output.

Property / cleaning date

Check-out + next check-in

Assigned cleaner

Linen + restock complete

Issues / damage log

Final inspection + time

COPY-AND-PASTE AI PROMPT

Make a concise turnover checklist for a two-bedroom holiday rental using the rooms and inventory I supply. Group tasks by zone and add a final inspection section. Create a short completion message listing unresolved issues. Do not invent access instructions, safety checks already completed or guest information.

WORKED MINI-EXAMPLE

Check-out	11:00
Cleaning start	11:30
Estimated work	2 h 15 min
Target completion	**13:45; buffer until 15:00**

WATCH OUT “Done” is not a useful handover if missing towels or damage were not reported.
